THE GRACE OF TRUTH.

BY JEAN L. BRUCE.

In every glance, in every word,
Oh! mortal let this grace be found.
Pure as the tones of piping brook,
Whose songs 'mid echo rocks resound;
So when thy soul by strife is stirred,
Let it by this bright web be bound,
The web of Truth undimmed, unblurred;
Then shall no blush thy soul confound,
And thou may'st meet thy brother's eyes,
Free as the sunbeams meet the skies.

The planets in night's starry aisles,
Portray its pure and quenchless light.
When Nature's elements dissolve,
'Twill still live on serenely bright,
Where the hid rill in shadow plays,
'Mid the weird forest's mimic night,
An echo of its music strays,
Filling the darkness with delight.

Truth speaks from Nature, from the rose
That flaps its leaflets in the breeze;
In the white pebble on the beach,
In the grand anthem of the seas;
The shell its spirit tones disclose,
The budding blossoms on the trees,
The insect's psalm that upward flows,
Praise Truth in holy ecstacies!

The bleating lamb—each living thing
Proclaims its God! and God is Truth!
This is the spark so pure and warm,
That shines in an eternal youth;
It speaks from all creations form,
The heaven part of the soul, forsooth,
That with all time will hold its charm,
Then blend with God's unceasing Truth.
Truth! sentinel, grand and sublime,
Thou guard'st the rampart of Heaven's clime!

VIEWS OF AN ARIZONA MAN.—An Arizona correspondent of the San Francisco *Flag* concludes a valuable letter as follows: "The most objectionable feature I have been able to discover in doing business in this territory, is the want of more capital for further developing the mines. The miners complain of the scarcity of cash. If the Legislature of California will only repeal what is known as the Specific Contract Act, it will be applauded throughout the country. The legal tender acts were war measures, and California, by her Specific Contract Act, cast her influence, in no small degree, on the side of those who with bloody hands were attempting the dismemberment of the Union. That such was the intention or spirit of the people, I would not even suppose; but, unfortunately, they permitted their preference for a metalic currency, and the influence of the bankers and money-shavers to place the State in opposition to the financial policy of the country, thus preventing her from being in hearty sympathy with the other large States. No sane man can doubt but that California would have been much more wealthy and prosperous if her currency had been mixed, instead of an exclusively metallic one. She has not only failed to co-operate with the other States in maintaining the government credit, but has misapprehended her own interests. No country ever prospered for any considerable length of time where money commanded so high a rate of interest as it does in California; but nothing, in my judgment, would tend more directly to reduce that rate of interest than the introduction of a loan and paper circulating medium. History has taught us that paper money has been found to be a necessity in all commercial countries, and especially in the United States; and what is true elsewhere must be true in California. With all her great advantages, what has prevented her from receiving a constant flow of emigration? What has prevented her from being a commercial and manufacturing State? What is now repressing her enterprising people? In fact, money is too dear and credit ignored. We must have a well regulated credit system and a paper circulation to quicken enterprise and give impetus to business. Without a lower rate of interest, and a sound banking system, such as is provided for by the National Currency Act, California and the adjoining States and territories will linger in the career of greatness and prosperity."

The Memphis *Commercial* recently published an important article under the title of "Let the South be heard," in which it asserts that the feelings and conduct of the Southern people are persistently misrepresented by correspondents of the New York *Tribune* and other Northern papers, in order to induce the government to deal more harshly with them; it therefore advises the holding of a Southern Convention, in which only those who have been active in secession shall be represented, in order formally to renew their pledges of fealty to the law and the constitution, and to recognize the fact of the abolition of slavery. The *Commercial* says: "Let them repel the unfriendly and unfounded aservations of their traducers, and extend to the measures and policy indicated by their executive magistrate, a hand and heart of earnest assent and co-operation. With such a demonstration the country would rest content. The President would rejoice at its manifestation. It would strengthen its own arm—weaken that of his political antagonists, and to its conclusions the judgment of mankind would pronounce one universal amen."

POLITICAL HEROISM.—The editor of the Alpine *Chronicle* says that he went into the election business determind to win and win he did. He relates somewhat of his determination in this style: "We had cast our all upon the hazard of the die—we had drawn the sword and thrown away the scabbard, resolved never to sheath it until victory was won, except in the breast of our foes."

A MILLIONAIRE MENDICANT.—A good story is told of a citizen of St. Paul, Minnesota, who has just returned from California with a handsome pile. While in this city, the gentleman, who may be called Mr. Weekley, as being far removed from his own name—had some drafts on a bank in New York, and as he could not get paid without being identified, hunted up, after several days' trouble, a firm with which he had formerly had some business transactions, and to one of them he was personally known. Mr. Weekly had, just before leaving California, the misfortune to break one of his legs, and was walking around on crutches. While waiting at the store of the person who was to identify him, for him to accompany Mr. W., the latter sat down near the door, laid his crutches on each side of him, and, the day being warm, took off his hat and laid it upon his knee. Just then one of the clerks happened to spy him, and supposing him to be an applicant for relief, said peremptorily, "Can't do anything for you to-day sir; move on!" Mr. Weekly did'nt see it in that light exactly, and retained his seat undisturbed by the fellow's laughable mistake. By and by another clerk came along, and being more generous than No. 1, dropped ten cents into Mr. Weekly's hat, which that person, with the composure of a stoic, coolly picked up and salted away in his vest pocket. The joke was carried on so admirably, that clerk No. 3, also deceived by the pantomime, likewise threw a ten cent fractional currency into the hat. Not to be outdone by his storemates, clerk No. 4 paid the same tribute to the supposed lame beggar. The thirty cents were duly salted away, and no one the wiser for the joke. Just here the merchant for whom Mr. Weekly was waiting, and who, from his counting-room had been an amused witness of the whole thing, came out, and Mr. Weekly accompanied him to the bank. "I believe my boys actually took you for a beggar," said the merchant, scarcely able to contain himself. "I don't care a straw what they took me for," said Mr. Weekly, with unruffled composure, "but I know that I have made thirty cents by the operation,"—which thirty cents was forthwith consumed in a libation to the health of the three unsophisticated clerks who took a St. Paul capitalist for a New York mendicant.

SAD LITTLE STORY.—When the Fortieth Missouri arrived on the steamer Olive Branch, a woman, with joy sparkling in her eyes, hurried on board. With a buoyant step and palpitating heart, she scanned the different companies drawn up on the deck. "Where is Company K," she eagerly inquired. "Over there," replied a soldier, pointing in the direction of Company K. The woman hastened to the spot, and, passing rapidly in front of the sun-burnt faces of the men, gazed at each with a keen, penetrating glance. She was looking for her husband, who had written to her from Montgomery, Alabama, that the regiment would start for home on the following day, and that in a short time he would be with her. Once more she passed along the line, scanning the faces with a close scrutiny, but failed to find the one she sought. At length she timidly addressed one of the soldiers: "Is this company K?" "Yes." "I am looking for my husband—where is he?" "What is his name?" "Walker." "Oh, he fell overboard and was drowned in the Alabama river. The poor woman clasped her hands over her face, and without saying another word, passed from the boat back to the shore, seeming to walk without the use of her eyes. Her heart was too full for her utterance, and the great agony that had come so suddenly upon her, sealed her lips and checked the fountain of her tears; but the men of iron-nerve who saw her, and knew the cause of her sorrow, wept like children.—*Mo. Dem.*

THE MEANEST KIND OF SECESH.—Governor Fiske, of the Tennessee Department reports as follows: "I will give you an instance of many that has come to my knowledge. Three of the first families of Tennessee, following the fortunes of the Confederacy, had taken up their residence in Alabama, far from the scenes of strife, waiting the attainment of their "rights in the territories." They dwelt together as one family. They all had money—one of them was formerly a banker, had carried with him southwards large deposits of coin. When the end came, and we commenced feeding instead of fighting our misguided brethren, the three heads of the joint family learned of the ration movement and immediately posted off to the nearest military station for their share, and each one drew for the whole number in the three families. Thus for five days seventeen persons received 255 rations instead of 85. I have reported this case to the proper authorities for investigation, and hope the rascals will be punished.

FENIAN MATTERS.—The telegraph states that the English Government are going to make a diplomatic fuss over the Fenian demonstrations in the United States. We do not exactly see what John Bull can do in the premises. The Fenians have not proceeded to any extremities. They have done nothing except hold meetings to express sympathy for Ireland, and English people did as much to manifest sympathy for the cause of American rebels, and no diplomatic

REGULAR UNION NOMINATION:

For Justice of the Supreme Court,

S. W. SANDERSON.

NOMINATIONS FOR TOWNSHIP No. 4.

For Justices of the Peace,

E. AUBURY, J. H. NEFF.

EDITORIAL CORRESPONDENCE.

SACRAMENTO, Sept. 20, 1865.

ENQUIRER:—Contrary to all intention on my part, I find myself at the capital of the State. After leaving the aerial nest for eagles, jay-hawks and country editors, I proceeded direct to Colfax, the present jumping-off place for the cars of the Central Pacific Railroad, from whence I was soon taken to Auburn. After landing my nineteen-twentieths and innumerable responsibilities at the "fairest city of the" foot-hills, I allowed myself to be persuaded to take the trip by which I found myself in this modern Babel.

The city has greatly changed since my former visit, five years since, and many valuable improvements have been made, as well as going on. The work of grading the streets is progressing, the consequence being that great piles of mortar, brick and stones are taking to themselves airs and extra elevated positions, giving Front street a very dignified appearance. Having noticed what was remarkable on two blocks, I performed the most daring, fearfully dangerous feat known on record, and it would have been noticed were the people of this overcrowded city capable of appreciating anything outside of a canvas, or had any more curiosity than a Chinaman or a Digger Indian.

At one o'clock I took a seat on top of one of the thousand-and-one stages, omnibusses, carriages, buggies, wagons, carts, etc., for the big race to come off between

NORFOLK AND LODI,

at the Society's grounds. Early after arriving at the ground, for the privilege of which I had to pay a dollar—having left my season ticket in Dutch Flat, on the piano—the riders were weighed, the horses brought out, riders mounted and made ready for the start. On the second trial the horses got off in fine style, Norfolk a little in the lead, which he maintained until he got to the half-mile post, when Lodi took the lead and kept it until they got to the home stretch, when Norfolk gathered on and passed him, coming in at a tremendous rate, under a dead pull, about forty feet ahead. The second mile was a repetition of the first, Norfolk winning the heat with ease. The second heat was more closely contested, but it was apparent that Norfolk had both the legs and wind of Lodi, beating him easily. The same horses are advertised to run again on Saturday, three-mile heats, at which it is thought Lodi will make an extra exertion to retrieve himself. The second race, between Alick Barnes and the bay horse was not much, and resulted in favor of the former. The second day Honest Ance and May Queen entered the lists, but the odds were greatly in favor of Honest Ance, which he verified by winning both heats.

Leaving the track, I was induced to forego my usual good sense, and promised a visit to the halls of Thespis, where that old Long-Haired Scoundrel of Switzerland, Gesler, was to make a public exhibition of himself, which he did, to the disgust of everybody who witnessed his rascality, reminding one forcibly of the contemptible capers being cut by a certain big-little man who solicited the suffrages of the good people of your county last election; failing to get elected, he is now endeavoring to heal his wounded honor (?) by extorting money to repair a damaged reputation. The thing won't work.

The arrangements made by the State Agricultural Society are not as good as in former years, but considering the difficulties under which the society has labored for the last years, they are as good as could reasonably be expected. Fearing something may occur that I will not see, I close, hoping to be back in time to assume my duties next week. Hold! I saw Beriah Brown, the Lieut-General of the Knights of the Columbian Star, and who has been imported from Mexico to give tone and *respectability* to the Democratic State Convention just held in this city. Judge Hartley, the English Copperhead received the nomination for Justice of the Supreme Court, fit man to be beaten, but too *Democratic* to be elected. He'll find that *the people* go nothing on English Snob-ocracy. Adieu. B,

SUPPOSED HORSE THIEF.—A man giving his name as John Hildreth, was arrested in this place on Tuesday, Sept. 19th, by Constable Greeley, on the complaint of Mr. Fletcher, of Fletcher's Ranch, charging Hildreth with stealing a horse from John Mitchell, living in the neighborhood of Clipper Gap. It appears from the testimony taken at the examination on Wednesday, before Justice Aubury, that some time during the past month, Hildreth left a horse in the care of Fetcher, at the ranch, and went away to be gone some ten days, more or less, and left instructions to sell the horse, if he (Fletcher) could get one hundred dollars for him; or, in case he could not sell him, use him for his keeping. But, before he returned, John Mitchell had heard that there was a horse at Fletcher's that suited the description of one he had lost a few days before, and had gone to Fletcher's, proved his property and taken it away. On Hildreth's getting back to Fletcher's and finding the facts as above stated, Hildreth proposed to go with Fletcher to Clipper Gap, to Mitchell, about the horse, saying there was a mistake about the matter somewhere, as the horse was certainly his. They set out on their way to see Mitchell, but on arriving at Dutch Flat, Fletcher made complaint against Hildreth and had him arrested on the charge of horse-stealing. He was examined on Wednesday, before Judge Aubury, and placed under bonds of five hundred dollars, failing to give them, Constable Greeley took him below to Auburn on Thursday last to await the action of the Grand Jury.

ELECTION TABLE.—We re-publish the election returns this week, in order that all our readers may have an opportunity to lay by a copy. The figures have carefully been compared with those on file in the Recorder's office, and we know them to be correct, consequently any calculation made from these figures must be right.

LETTER FROM IOWA HILL.

IOWA HILL, Sept. 18th, 1865.

EDITOR ENQUIRER:—Perhaps a few lines from this place will be welcome to the kind readers of your paper, and as the ENQUIRER is extensively circulated on this divide, why should we not occasionally be entitled to a column therein for our own local news? As the election is over, everybody seems to converse about some more beneficial and interesting object; and I declare I have been disgusted with all the talking about the "long and short hairs," as though one had no right to wear his hair as he had a mind to. However, the Union ticket is elected, and no doubt the defeated candidates are now seeking passage on board the "Bolter," *en route* for Salt River. Thank Providence, I have been spared; although not a candidate, I came very near being one without my knowledge. But you want some news, and what shall I say except that Iowa Hill has the most indifferent people, the most and prettiest young ladies, the worst wagon roads, the most mining claims, and the least water to work them with, of any of her sister towns. The workmen on the railroad can be seen from many points of our main street, and in a short time the iron horse will be seen gliding along, whistling whenever it comes in view of this place, and our daring and enterprising capitalists, who no doubt begin to realize that our place is to be left "out in the cold." I do not mean to say that we ought to have a railroad to this place; but I mean to say this, that we ought to and should have better wagon roads leading to and from this place than we have now; at least a road where a person need not have any fear of breaking his neck in crossing the North Fork, for surely a worse road than the one leading from this place to Illinoistown cannot be found in the mountains, and yet our people are asleep, very likely expecting that at some future time some eastern capitalist will come and build them a better one. Being a little anxious to see the cars come into Colfax, a party of us concluded to go over on foot, for that is the only public and safe conveyance to be had from this place; when the words of the highwaymen and robbers were whispered into our ears so much that the rest of the party declined to go, no doubt fearing that these daring gentlemen of the road would relieve them of their little change besides inflicting numerous imaginary injuries not very agreeable to their precious personages, consequently I was obliged to ve ure the journey alone, and managed to slide and climb over, with a slight lop to the heels of my boots. Taking a hasty glance at the new town-site of Colfax, I noticed the sign, "Lots for Sale," and was informed by some acquaintances that your editorial eyes had been looking about, and presume that you have bought yourself rich, and are now only waiting for the brilliant future when Colfax shall be a large city, and "lots" raise to such a figure that you will dispense with your "devil" and press, and for pastime ride in a chaise at the rate of "two-forty on the shell." Having satisfied my ambition of "riding on a railroad keer," to Clipper Gap and back, I directed my weary limbs toward home again, for this was all accomplished in one day; but walking was not so easy and pleasant as riding, especially with no heels on the boots, and seeing the cars glide away again. The saying of the son of the Emerald Isle was strongly impressed on my mind, that "Them that's rich can ride in chiases and them that's poor can walk, be Jasus." That part of the road leading from Illinoistown to the North Fork is of an easy grade, and considering the nature of the country, cannot be desired to be better, but from the river up, it cannot really be any worse, for a toll road. Having managed to climb as far as Cape Horn, my attention was attracted to the beautiful and romantic scenery which can be seen from the above named point. Down an almost perpendicular and dizzy depth below, the waters of the North Fork and surrounding cañons, appear like small gushing rills, while the tall majestic pines on either side of the mountain seem like guardian angels keeping watch over the stream below, and far in the distant west the valley of Sacramento, and the light blue of the Coast range is distinctly visible, while the Sacramento river appears like burnished silver, in all its eccentric meanderings from the slanting rays of the sun, and close perpendicular above me, the ancient and rugged rocks rear their hoary heads high in the air in all sorts of wild and fantastic forms; briefly the scene is one of great grandeur and beauty which my feeble pen is utterly unable to describe. I wished myself an artist, that I might paint the works of the Almighty in all their grandeur and and beauty. But alas! I am only one of the great many poor who are doomed to work with the pick, and destroy the beautiful works of nature, which are prettier and more sensibly decorated than all the temples and mosques of the world. While I was thus pondering over the beautiful scenery before me, I was frightened by some noise and voice near by and instantly I had the impression that the robbers were really at hand and having no more change with me a thought struck me, that these daring gentlemen might get angry with me, and gently precipitate me from "Cape Horn," to the North Fork, in my frenzy I exclaimed "*Ach wahr ich zu house geblichen*" and turning around to run from that suspicious place, I saw them coming, man and horse, the old gentlemen apparently holding on to the animal's tail, and thus compelling it to drag him along, imagine my gratification when it proved to be the Expressman, and who was also "scared to death," having taken me for a robber. I cannot vouch for the color of my face, but that of the old gentleman looked very much the color of the snow. He informed that the country was full of robbers, that a few days ago they had robbed a man on that very place, Cape Horn, and that there was no telling when they might attack him, and carry horse, expressman and all of, thus we kept conversing about these dreaded gentlemen, and watching every stump and rock near the road, untill the house tops of Iowa Hill came in sight. For that night too I dreamed of men with masked faces, large knives, big teeth, and large pistols, having hold of me, choking and cutting away at me, until I woke and cursed the robbers from Iowa Hill to "Colfax." "Mada.n Rumor" has been very busy with her usual tales all this summer; thus a rich Pennsylvania company had made a survey for a ditch from the North Fork to this place, that every thing was all ready, only that the Superintendent had gone East, to show the lucky shareholders, the advantage and profitable investment of the enterprise, that the Superintendent was coming back soon and hire all the men he could get to go to work on it, and bring in the water, that the company had plenty of money, besides a number of oil wells, and that the money flowed to them as plenty as the oil from their wells, etc. But apparently the oil has given out, and consequently the Superintendent of this grand project is detained at home for a while yet, although the old lady is busy yet to the gratification of all who believe her. Now, a lesser inducement can never be found for capitalists, in this State or abroad, the mining ground around here is extensive and rich enough to warrant a company to bring a ditch to this place, what are the people of this divide about? Are they going to wait for the next generation to come and make it, and themselves laying idle? I hope not! give us a good road to any point on the railroad, and plenty of water, and Iowa Hill will come forth again "as in days of yore." Otherwise it will go down to posterity until history fails to give any record of it. In future I will write more definitely in regard to the ditch, at present I have not got information enough to say more about it. The steam whistle of the "Morning Star" mill, is now regularly sounding the time to commence and quit work, while the heavy noise of the stamps is continually battering away, giving altogether a pleasing discord to our heretofore dull, and monotonous town, and the merry voices of twenty busy workmen, may occasionally be heard singing the familiar words "Now blacksmith come, and fire around, and sharpen my piek to pick the ground. The gold is hid deep under the ground, and we'll bring it out on the railway." The "Sailor Union" and a cañon claim, are reported to pay big. Why these men keep it a secret how much they take out, is a mystery to me unless they also got the "*robber mania.*"

The Lebanon Mining Company have fixed up extensively, and will no doubt soon show themseves, judging by the big nuggets they come across occasionally. My lamp is without any more "ile," so I must close, and it is much as I can do for fear of these accursed robbers to write the name of IKE.

LETTER FROM MEADOW LAKE.

FRIEND BOUST:—Although news of importance is scarce, what little there is may interest you. There is nothing worthy of note going on in Summit City, unless occasionally an amusing episode in every-day life. The miners are working on some of their ledges with the apparent intention of prospecting them thoroughly. The Excelsior company are still getting out ore which they intend sending to Virginia to have worked. They object, (and I think rightly,) to having their rock worked by the mills here, because they are not perfect enough in machinery and process to give a satisfactory test. They are getting out some very fine ore and are very sanguine in their expectations; their tunnel is progressing slowly. The Wisconsin is still paying well, although they have to burn their ore now to destroy the sulphurets. The Pacific are also getting out ore for shipment to Nevada; they have some of the finest ore in the district, the ledge measuring seven and a half feet in width now, well walled and cased. The California Company are building their mill and getting along very fast; they expect to get it done so as to be able to work all winter. They have fine locations, the ledges being very easily worked. The R. M. Co. have got their mill in operation, and have been crushing rock from the Indian Boy for about a week. The contractors on the Rattlesnake and Washington are getting along very fast and are making preparations to work all winter; the rock is getting very soft and looks well—some trading done in that stock. There are quite a number of claims lying idle, and some new discoveries, but not much known about them yet. In the vicinity of Baltimore work is about suspended for this year, still there is some work going on in the Old Man Mountain. The Virginia Company are sinking on their ledge night and day—very slow work, as the rock is very hard. On the other side of the river a great deal of work is going on—more in proportion to the number of ledges than here. The Enterprise had ten tons of ore worked in Virginia, and received the nice little sum of one thousand and twenty dollars from the same—not bad for ten tons of ore. The Crystal ledge looks well, also the Nonpareil. The Accidental, Scottish Chief, White Mountain and a few others are good claims—saw a working assay out of one of two thousand dollars. Kitchen & Burckhalter are getting in a heavy stock of goods, in order to supply those that intend stopping here all winter with the necessities of life—rather a hard way to serve the Lord, though. Stopping here all winter would not suit me at all. By the way, quite an amusing incident occurred here the other day at the store of Kitchen and Burckhalter: The lady who used to be a tenant of their coffee-roasting establishment, came into the store and, after pricing some articles, made use of some language which Kitchen thought rather unbecoming in a lady, and he rather foolishly made free to tell her so, at which she became highly indignant, so much so, indeed, that catching up a bucket of water, she gave him the benefit of the contents, and as he turned to run she gave him a very polite introduction to the toe of a number seven, and had it not been for the kindly interposition of Carey & Cohen, would no doubt have given him a token of her regard in the shape of a ball from her Deringer, which she was trying to draw when they stopped her. I would advise him not to disturb the ladies when they are taking lessons in etiquette, and never question their authority to do as they please. Carey & Cohen are doing well, and I am glad to say friend Carey has quite recovered from his late dangerous illness. Fulweiler & Simms are closing out business, both tired of keeping bachelors' hall. Fulweiler has been laboring under a severe attack of quartz, is a little better now, I believe, but the doctor thinks his recovery very doubtful. Simms, I understand, intends migrating to some more favorable winter quarters, from his inquiries as to the altitude of the Dutch Flat and Donner Lake Wagon Road, and from the fact that he is negotiating for the purchase of Carey's gray horse to carry him there, I am led to believe that it is the place of his choice; and our fair young friend with the golden ringlets, who when here was the belle of Summit City, is beyond a doubt the magnet which attracts him thither. Were it not that she resides there, I think I am safe in stating that he would find a more congenial clime in the vicinity of German Level. Tell Quid Nunc that I am glad that he has recovered, but I think the febrifuge he took and would prescribe in such a cass, would have an effect contrary to the one wished, and instead of allaying the fever would only increase it; but he can tell best, as he has tried it, and if he thinks I need it, send along a bottle; and tell him to let those boots of Carey's alone—they are private property.

Yours, OCCASIONAL.

SELFISHNESS.

EDITOR INQUIRER:—Allow me a few words on selfishness. I am one of those who believe that selfishness may be a good as well as an evil attribute. There are two kinds, viz: *Noble* and *mean* selfishness. That selfishness which prompts us to honest perseverance, which stimulates us to accumulate means by which we may alleviate our own wants and the wants of the deserving needy and destitute, is *noble*, and embodies the life, energy and happieess of mankind. But how disgusting to all the finer sensibilities of our nature, is that greedy selfishness which many exhibit in all their acts, every day and hour of their lives. Caring only for their own accommodation, they are envious of accommodations and favors extended to others. Do we not see, every day, many who have more than a sufficiency of this world's goods, viewing with cold indifference the miserable poverty of their neighbors? They never *volunteer* to alleviate misery and suffering, and when solicited, they either turn a deaf ear or devote a miserable pittance under a haughty, grudging protest, as if the poor were worthy only of scorn and poverty—a thing to be despised. This is *mean selfishness*. The meanest of all selfishness is that which envies the good name and reputation of another, which searches with prying eyes and open ears into another person's private affairs, and then sows the knowledge thus obtained broadcast, as if, like thistle-seed, it was property belonging to the public. We call this *inquisitive selfishness*. It prompts the mean carcase which it inhabits to neglect its own duty and search for every minute defect in the conduct of others; to magnify every little indiscretion; to construe every ambiguity into vulgarity; crawl stealthily, under cover of darkness, to a neighbor's window, and listen at the key-hole; to talk and criticise insinuatingly, in order to draw out opinions unfavorable to the object criticised. Foiled in this, a still worse feature exhibits itself, viz: *to lie.* If caught in any of their dirty tricks, such guilty, despicable *things* will resort to lying, and keep awake nights concocting schemes to throw suspicion from their own guilty persons, and try to destroy the character and ruin the happiness of others, but "Time at last sets all things even," and persons are never more easily deceived than when they are trying to deceive some one else. DREAMER.

FAILURE OF THE MAILS AGAIN.—From some cause or other, best known to the stage agent or the postmaster at Illinoistown, we are again without the mail, a circumstance which has happened about three times in the last ten days. We do not like to complain, but if this happens again, we certainly will enter our complaint at head quarters and see if it cannot be remedied. Our people are a reading community, and do not like to be disappointed in getting their papers as well as their letttters.

LETTER FROM THE OLD MAN MOUNTAIN.

OLD MAN MOUNTAIN, Sept. 20, 1865.

EDITOR ENQUIRER:—Hoping a few lines from this part of Meadow Lake District may interest the many readers of your valuable paper, I shall endeavor to give you a correct statement of facts concerning our locality. The first claim worthy of notice, is the Mohawk, or as it has been called, the French lead; this is a well defined lode and is very rich, free gold in abundance can be seen in the rock; they have been working the loose dirt from this ledge in a rocker, and making from eight to twelve dollars a day; they are getting out twenty-five tuns of rock to be crushed at the R. M. Co.'s Mill, the result from which is expected to be a big clean up; there are twelve claims in this company, owned by Galloway, Brown and others. Next comes the Crescent Ledge, Hidden Treasure Company; they have equally good prospects, and have built an arastra (horse power) to work their rock, but owing to its poor construction, it does not "fill the bill," as interested parties have informed me that they lost five pounds of silver out of six; however, in five days' run they cleaned up ninety dollars in gold, which is proof positive that it is very rich; this company have been offered $20,000 for their ledge, but would not sell at that price. Next comes the New York, nine hundred feet; they have sold three-fourths of their ground at $3 50 per foot, and are to erect a mill, build roads, etc, and the selling party reserve one-fourth unassessable; they are now engaged in building a house to live in, and intend doing all they can this fall on the mill. Next comes the New York No. 2. They have not done much work as yet, are working out assessments. Next comes the Montana's Nos. 1 and 2. They are working on both these lodes, and free gold is abundant in both of these claims, they are satisfied they have their pile. Next comes the Phœnix, a very large ledge, and well defined, it can be traced for miles on the surface, they intend to erect a mill next spring, indications good. Alabama comes next, this is probably the richest rock in the District, some of the rock which I have seen, is literally covered with free gold; take it all together it appears that all the claims around the Old Man are very rich. All are in the best of spirits (I don't mean "Ho Jo. Whisky) and some will realize a fortune if indications are any criterion to go by. As regards to Summit City, it is still improving to a certain extent. There are two sawmills in course of erection, one of which will be running in ten days, both steam mills. The R. M. Co's mill is running and at present crushing rock from the Indian Boy ledge with fair prospects. We have had some cold weather but it is quite pleasant at this writing. Some are leaving for the lower mines, having worked out their assessments, while others are coming in. All expect a general rush in the Spring. If you think this worthy a place in your paper put it in. Yours with respect, OLD MAN MOUNTAIN.

OFFICIAL RETURNS FOR TOWNSHIP OFFICERS.

Owing to the omission of the returns for Township No. 10, we republish the returns for Township Officers, which can be relied on as correct, as they have been compared with the official returns on record:

EXCITEMENT AT SUMMIT CITY.—Great excitement was created at Summit City on Wednesday, the 20th inst. caused by a party from the State of Nevada jumping the Plaza, laid off by the town company as a public square for the general good. The jumpers all hail from Virginia City. When our informant left, the citizens were holding a meeting which was being addressed by James Galloway, Esq., and great excitement prevailed.

NEW SHOP.—Mr. Hillhouse, of this place will open a hardware and tin-smithing house at Gold Run next week, where the people of that place can be supplied with every description of hardware and other articles in his line at reasonable rates.

BALL.—Our ball-goers will thank us for informing them that Mr. Rice of the Gold Run Hotel will give a social ball on Thursday evening next. Those who have attended parties given at this house need no persuasion from us to induce them to attend.

MACHINERY FOR EXCELSIR.—The California Consolidated Mill and Mining Co. have been engaged during the past week taking down the battery and engine and boilers which they purchased of Land & Co. and of the Potosi Company for the purpose of sending it out to Excelsior to be used in the new mill they are building there. It will be shipped the first of next week. Mr. G. E. Ames, who will have the charge of putting up the machinery, leaves on Monday next for Summit City, where he goes to make arrangements for receiving it. He has also been appointed Superintendent of the Lincoln and Mount Moriah companies, and will look after their claims while he remains there this winter.—*Gold Hill News.*

LIBERAL CONDUCT OF THE SANDWICH ISLANDERS.—We are informed that when the news of the burning of our whalers was received in Honolulu, the King immediately offered $50 each, for every Kanaka brought to that port from their barren refuge, at Ascension Island. The American Counsel and Commissioner at that port also acted in a liberal manner, while Mr. Foster, a patriotic American ship carpenter, residing at Honolulu, at once fitted out the bark Joe and dispatched her to the rescue of the suffering crews, who were in danger of starvation. These praiseworthy efforts of the Sandwich Islanders have been recited to us in contradistinction to the action of some of our citizens in the matter, who, we are assured, were appealed to in vain.—*Bulletin.*

PROMISING.—Two hundred pounds of ore from the White Mountain lead, Excelsior, worked at the Mariposa Mill, yielded at the rate of $36 per ton—$30 in gold and $6 in silver. The ore was a fair average of that contained in the lead at or near the surface. With the advantages to be had in the district for water, fuel, etc., ores yielding even $25 per ton will be found very profitable.

CUTTING GOVERNMENT TIMBER.—Complaint was made before U. S. Commissioner Heustis in San Francisco, on Monday 18th inst., against Samuel Sherman for cutting timber on land belonging to the United States in Santa Clara county. A warrant was issued for his arrest, and an examination was to take place on Wednesday last.

RICH ASSAY.—We yesterday saw the result of an assay made on a piece of rock from the noted Enterprise claim, in Excelsior District. It yielded at the rate per ton as follows: Gold, $727 90; Silver $15 78. Total, $743,68. In this piece of rock, not a particle of gold was visible.—*Virginia Union.*

CENTRAL PACIFIC RAILROAD.—This institution is progressing finely; they are working so near this place that the sound of the ax of the workman and the falling of the "monarchs of the forest" along the line can be distinctly heard from our office. They are playing havoc with the timber in this neighborhood. Hurrah for the railroad!

THE EDITOR of this paper having run off to Sacramento the early part of the week and not returning in time for his duties this issue, our patrons will readily perceive the immense improvement in this number of the ENQUIRER. Editing a newspaper is just as easy as rolling off a log.

UNITED STATES 7-30 LOAN.

BY AUTHORITY OF THE SECRETARY OF THE Treasury, the undersigned has assumed the General Subscription Agency for the sale of United States Treasury Notes, bearing seven and three-tenths per cent. interest per annum, known as the

SEVEN-THIRTY LOAN.

These Notes are issued under date June 15th, 1865, and are payable three years from that time, in currency, or are convertible, at the option of the holder, into

United States 5-20 Six per cent.

GOLD BEARING BONDS

These bonds are now worth a premium of nine per cent. including gold interest from November, which makes the actual profit on the 7-30 loan at current rates, including interest, about 10 per cent. per annum, besides its EXEMPTION FROM STATE AND MUNICIPAL TAXATION, WHICH ADDS FROM ONE TO THREE PER CENT. MORE, according to the rate levied on other property. The interest is payable in currency semi-annually, by coupons attached to each note which may be cut off and sold to any bank or banker.

The interest amounts to
One cent per day on a $50 note.
Two cents per day on a $100 note.
Ten cents per day on a $500 note.
Twenty cents per day on a $1,000 note.
One dollar per day on a $5,000 note.

Notes of all denominations named will be promptly furnished upon receipt of subscriptions. This is

THE ONLY LOAN IN MARKET

now offered by the Government, and it is confidently expected that its superior advantages will make it the

Great Popular Loan of the People.

Less than $300,000,000 of the loan authorized by the last Congress, are now on the market.

This amount at the rate at which it is being absorbed, will all be subscribed for within four months, when the notes will undoubtedly command a premium, as has uniformly been the case on closing the subscriptions to other Loans.

In order that citizens of every town and section of the country may be afforded facilities for taking the loans, the National Bank, State Banks, and Private Bankers throughout the country have generally agreed to receive subscriptions at par. Subscribers will select their own agents, in whom they have confidence, and who only are to be responsible for the delivery of the notes for which they receive orders.

A NOTOIOUS BANDIT KILLED.—The notorious murderer Henry was killed on the night of Sept. 14, about twenty miles from San Bernardino. Henry and a confederate named Rogers had left Mason with the other portion of the garg in the mountains, and came down towards San Bernardino. Henry stopped at a house twenty miles from town while Rogers went in to purchase provisions and ammunition, got drunk and bragged of being a member of the Mason and Henry gang, when he was arrested, and told where Henry was concealed, and that Henry was armed with two six-shooters and a rifle, but had no ammunition for his rifle. A party took Rogers and started for the place, and when approaching it, one of the party stepped on a branch, which broke and alarmed Henry, who jumped up with a six-shooter in each hand, and commenced running and firing, but was immediately shot down, said to be completely riddled with balls, fifty-seven shots taking effect, after shooting Matthews, the Sheriff, one of the pursuing party in the foot. Henry's body was then brought to San Bernardino and a photograph taken of it, and has been identified by several parties who knew him well. Rogers says the Mason and Henry band are the party who murdered Kimball and Williams on the Santa Anna river some time since, and have been committing depredations through the lower sections of the State for some time past.

DRIED APPLES.—At Agricultural Hall, one grand feature of attraction, and one certainly deserving of all the attention it receives, is the fine display of cocoons which were produced in the county of Santa Clara. They fill several large show-cases, and from frame-work arranged over the cases hang, in beautiful order, more of the fruit of the silk-worm when aided by the mulberry. From any of the entrances to the main hall the display referred to is likely to at once strike the eye of a visitor. Last evening, among those who visited the hall, were two individuals who had evidently made up their minds not to be surprised at anything they might see. They were for the time to be *blase*, and assume for their first appearance the character of Sir Charles Coldstream. They ascended the stairs. They entered. They stared at the cocoons. Innocent souls! They thought silk grew in patterns. Said one to the other, "Jim this is played out. Getting up a State Fair to show how to string dried apples. They can't fool me. Let 'em take my half dollar. I am going to the circus." "All right," said his companion, "I am with you—but hold on, there's Bill up by the sewing machines, if he had seen those dried apples he would have been off." The recognizer of Bill went in search of him. These remarks were not missed by those passing to and fro. On the way for Bill, the searcher after truth cast an eye at the disdained dried apples. He accomplished a rapid retreat and told Bob confidentially, but not *sotto voce*—"Bob them aint dried apples—them's pea-nuts with sugar on 'em." A roar from the bystanders let those fellows out, and a Coldstream of agony ran down their back-bones as they started for the circus. *Sacramento Bee.*

INTERESTING DISCOVERY AT POMPEII.—Abundant details have been received from Naples respecting the freshly uncovered Temple of Juno among the recent excavations at Pompeii. Three hundred skeletons were found crowded within that sanctuary, a propitiatory sacrifice being evidently held in the hour they were overwhelmed. The statue of the goddess, with attendant peacock, the tripod in front of the altar, the golden censer, the jewels on the person of the priestess, the rich vessels holding a deposit of animal blood, are the main particulars dwelt on, no chapter in that awful story being more instructive or interesting. The eyes of Juno were of the most vivid enamel, her arms and her whole person richly decorated with gold trinkets, her gaudy bird resplendent with a cluster of glittering gems. Aromatic ingredients lay calcined within the censer, while gorgeous lamps and bronze ornaments strewed the tesselated pavement.

A RESPECTABLE citizen of Port Wayne, Indiana, who recently returned to his home after three years service in the army, and found an unfortunate state of things existing in his dwelling, set things to rights as far as the nature of the case admitted, and afterwards, being assailed by two men who had been in the habit of visiting his house during his absence, and who attempted to force an entrance into his dwelling against repeated warnings, he shot both of them down, and both soon died from the effects of their wounds.

RUMORS are beginning to come across the water that some European governments are contemplating a European Congress, to devise common measures to protect themselves against what one of the papers in their interests designates the "colossal and unscrupulous power of the United States." But the trouble seems to be that Russia, Prussia, and Italy profess themselves unable to see what harm the United States can ever do *to them*, and so refuse to take part in the proposed Congress.

JEFF. DAVIS FALLING INTO OBLIVION.—If the government desired to subject the fallen rebel chieftain to torture, it may be doubted whether a surer mode of effecting this purpose could be devised than by furnishing him with the daily papers, and permitting him to see from them how utterly inconsequential he has become to the world in which he once moved, now that the curiosity and excitement occasioned by his pursuit and capture has subsided. That he has here and there a friend who would be glad to serve him if possible, is undoubtedly true; but no garroter awaiting trial for highway robbery seems to be of less consequence to the public at large. Indifference and contempt divide the public feeling in regard to him. Nothing could be more withering and bitter than such a fate to a man of his towering ambition and haughty pride. Compared with this all his other misfortunes were grand successes—for Jeff. Davis, of all men on earth, would rather reign in Hades than serve in Heaven. No amount of disaster to Confederate armies would have broken his spirit; he would probably be bold, defiant and calm, even on the scaffold; but to be deemed of no consequence for good or evil, is to him the refinement of bitterness. There is some force in the argument frequently urged, that in no way could so keen a vengeance be visited upon the fallen leader of a crushed cause, as by dooming him to live disfranchised in the midst of those whom he has led to ruin. All surmises in regard to his expected trial have hitherto proved at fault, and we have no official intimations as to the fate in store for him, except as they are drawn from the general utterances of President Johnson, prescribing the doom of traitors.

A BOY'S LAWSUIT.—Under a great tree close to the village two boys found a walnut. "It belongs to me," said Ignatius, "for I was the first to see it." "No, it belongs to me," cried Bernard, for I was the first to pick it up." And so they began to quarrel in earnest. "I will settle the dispute," said another boy, who had just then come up. He placed himself between the boys, broke the nut in two, and said: "The one piece of shell belongs to him who first saw the nut; the other piece of shell belongs to him who picked it up; but the kernel I keep for judging the case. And this," he said, "is the common end of most lawsuits."

FROM OWYHEE.—The following items from the Owyhee *Avalanche*, a paper just started in that region:

On the 22d day of July, Wells, Fargo & Co opened an office in this place, and up to August 22d, had shipped two hundred and five pounds of bullion, valued at $14,371 71; and gold dust and bars, to the amount of $13,372 80. We will state here that this showing does not amount to one half of the bullion and dust shipped from this place during the month named, as a very large per cent. has been taken away by private parties, who have been travelling to and fro, and made no record of the amount taken. There is also a considerable amount now on hand waiting to be sent off.

The Flint District is situated about twelve miles south of this place, in the southeastern range of the Jordan Creek mountains, on Boulder Creek, and was formed about a year ago. From reliable sources we learn that from forty to fifty men are now prospecting in that section, and have discovered altogether in the district, up to this time, about twenty good, reliable ledges. The ledges are said to be large, but not so rich as those in this district.

Up to Wednesday last, eighteen wagons had arrived with machinery for new quartz mills: and ten more were yet back, containing the second shipment consisting of some 30,000 pounds of extra freight, cams, boxing, etc.—which will be kept on hand for use in case of the breaking of any piece of machinery. The machinery was shipped by way of Umatilla, Oregon.

THE RACE.—The race for $500, between the schooners Helen Louise and Ellen, in San Francisco Bay, on Sunday, was quite exciting, the vessels being very nearly matched. The first named was the winner.

DISTRICT COURT SUMMONS.

STATE OF CALIFORNIA, County of Placer, District Court of the 14th Judicial District of said State. The People of the State of California, To Johanna Vogel, Ephriam Vogel, Rachel Vogel, Rebecca Vogel, Sarah Vogel, Edwin Vogel and S. Heyman, Greeting:

YOU are hereby summoned to answer the complaint of E L. Bradley in said Court, filed against you, within ten days from the service of this Writ, exclusive of the day of service, if served on you in this county, but if served on you without said county, and within said District, twenty days; and if served on you without said county and District, then in forty days from such service, exclusive of the day of service, in an action commenced on the 7th day of April, 1864, in said Court, to obtain a judgment against you, S. Heyman, administrator of the estate of Louis Vogel, deceased, for the sum of One hundred ($100) dollars and interest thereon from May 9th, 1861, at the rate of 2½ per cent. per month, alleged to be due to Plaintiff on a certain promissory note of Louis Vogel, deceased, of the date and for the amount above mentioned, and also for a decree of foreclosure against certain property mortgaged by the said Louis Vogel, deceased, to secure the payment of the same and that the interest or claim of all the defendants above named in and to said mortgaged property be declared subsequen to and subject to Plff's said mortgage, and also for costs of suit, all of which you will find more fully set out in complaint on file a certified copy of which is herewith served, and you are hereby notified that if you fail to answer the complaint as directed, Plff will take judgment against you by default as prayed for in complaint and apply to the Court for the relief demanded.

I. B. S. 50c — In witness whereof, I. D. W. Spear, Clerk of the Fourteeth Judicial District Court aforesaid do hereinto set my hand and impress the Seal of said Court, at office in Auburn, this 8th day April, 1864.

L. S. — D. W. SPEAR, Clerk.

It appearing to my satisfaction by the affidavit of E. L. Bradley, the above named plaintiff that the deft's Rachel Vogel, Sarah Vogel, Rebecca Vogel and Edwin Vogel above named have departed from the State of Caliornia; that their present residence and the residence of each of them is to the pl'ff unknown, and it likewise appearing that pl'ff has a good cause of action herein and that the above named Rachel Vogel, Sarah Vogel, Rebecca Vogel and Edwin Vogel are necessary and proper parties to said action, and that summons has been issued in said action, on motion of Tweed & Craig, atty's for Pl'ff., it is ordered that service of the summons in said action, (hereto annexed) be had upon said deft's, Rachel Vogel, Sarah Vogel, Rebecca Vogel and Edwin Vogel by the publication of said summons in said action in the THE DUTCH FLAT ENQUIRER, a newspaper printed and published at Dutch Flat, in the County of Placer, once a week for the period of three months.

MACHINES SOLD IN TWO YEARS.

Singer Manufacturing Co.
SEWING MACHINES,
139
Montgomery Street, San Francisco.

NOTE.—The Singer Machine is the only Machine that will sew all kinds of cloth with all kinds of thread.

The almost incredible increase in the sale of the Singer Machine during the past two years is owing to the popularity of the LETTER A TRANVERSE SHUTTLE Family Machine, which was introduced in 1860, since which time it has earned and established a reputation for family uses equal to the celebrated manufacturing machines of this firm, which are generally acknowledged even by dealers in other sewing machines, to be unequaled for such purposes.

☞ NO OTHER Family Sewing Machine has such perfect and improved appliances for Ruffling, Hemming, Binding, Felling, Tucking, Gathering, Guaging, Braiding, Cording, Quilting, etc.

☞ All persons requiring information about our Sewing Machines, their sizes, prices, working capacities, and the best method of purchasing, can obtain it by sending for a copy of the

CALIFORNIANS should test the merits of DR. HOSTETTER'S STOMACH BITTERS. While it is highly palatable as a beverage, it is unequalled as a tonic and invigorator. In the pursuit of fortune at the mines, many persons are exposed to the attacks of complaints of the digestives organs, and various kinds of fever. It is the very article that has so long been in demand in the mines. Its daily use will restore the tone of a deranged stomach, impart fresh vitality to the digestive functions, and cheer the spirits. Yet the Bitters is the safest of all stimulants. Let the miner who is exposed to hot and dry, wet and cold, be certain to obtain a supply of the genuine Hostetter Bitter, and he will find it a certain safeguard to health. [je17 1m

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C YOUNG, in 1850. In this age of deceit and charlatanism it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skilful Doctor the sick and troubled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number nor the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco. my5-3m

Medical Advice.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine qua non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others, to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner that must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge, unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertains to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—*S. F. News.*

A CURIOSITY.

Sterne relates the following story of himself: "I happened to be acquainted with a young man who had been bound apprentice to a stationer in Yorkshire; he had just then finished his time, set up in London, and had rented a window in one of the alleys in the city. I hired one of the panes of glass from my friend, and stuck up the following advertisement on it with a wafer:

"'Epigrams, Anagrams, Paragrams, Chronograms, Monograms, Epitaphs, Epithalamiums, Prologues, Epylogues, Madrigals, Interludes, Advertisements, Letters, Petitions, Memorials on every occasion, Essays on all Subjects, Pamphlets for or against the Ministry, with sermons upon every text, or for any Sect, to be written here, on reasonable terms, by
A. B. PHILOLOGER.'

"The uncommones of the titles occasioned numerous applications; and at night I used to glide privately into my office to digest the notes or heads of the day, and receive the earnests, which were directed always to be left with the memorandums; the writing to be paid for on delivery, according to the subject. The ocean of vice and folly that opened itself to my view, during the period I continued in this odd department of life, shocked and disgusted me so much, that the very moment I had realized a small sum, and discharged the rent of my pane, I closed the horrid scene."—*Salad for the Solitary.*

A REFORMED MAN.—Old Billy Smith kept a small store in one of the interior towns of Massachusetts. It was the rendezvous of all the loafers in the village. These fellows used to be there every night playing poker, generally with the old man's clerk, and, besides drinking the old man's liquor, spent his money, furnished by his confidential clerk. Old Bill suspected what was going on, and came down on them suddenly one night, and before they could hide themselves. Nemiah got "Jessie," but was forgiven, promising to sin no more. "Nemiah," said Billy, "never let a soul in after eight o'clock." Nemiah promised obedience. Next night the crowd were at work as usual and Billy thought he would go down and see how things went on. Accordingly down he went and knocked at the door. "Who's there?" cried Nemiah. "It's me, Mr.——; open the door." No; Billy told me never to let any one in after eight o'clock, and I ain't going to do it. "But, Nemiah, it's me—open the door in one moment." No, none of your gammon; you sound mighty like him, but it won't go down; so travel, or dod-rot your head if I don't give you a shot with this old blunderbuss, you old humbug!" Billy waited to hear no more, but started off like the wind, confident that Nemiah was a reformed man, and the next day doubled his salary.

A HARVEST OF GOLD.—The following is the official report of all the American gold received at the United States mint and its branches from our first gold discoveries down to June 30th, 1864: California, $556,718,873,11; Colorado, 9,783,571, 23; North Carolina, 9,121,397,03; Georgia, 6,909, 375,27; Oregon, 5,142,433,84; Idaho, 2,308,385, 97; Virginia, 1,558,874,41; South Carolina, 1,352, 960,44; Alabama, 198,330,83; Tennessee, 81,406, 75; Utah, 78,509,14; Nevada, 69,108,42; New Mexico, 63,023,53; Washington, 38,799,55; Arizona, 29,760,84; Vermont, 298,00; Dakotah, 7, 959,88; Other sources, 202,773,97. Total, $597, 188,734,21.

SOCIETY.—Somebody says that "society" is a nuisance, in a fashionable sense. It is nothing more or less than a series of cold formalities. It has no more heart than the rock of Gibraltar. The password to it is "money"—if you have got it, or can make the world think you have "go in." Brush up your beaver—never mind brushing up your character—and "go in!" Learn the set speeches of polite gossip, dress in good taste and keep a fashionable outside show, and you shall safely pass with the genteel elect. Society is "fearfully and wonderfully made."

HON. A. A. SARGENT is to lecture in Sacramento on Thursday next. Subject—"The Education of the Industrial Classes." The subject of this lecture was probably suggested by the unprofitable industry with which the chickadee statesman applied himself to so divide the Union party as to give him the best chance for the United States Senate. In the late election of member of the Legislature he carried one county, it is said. In the other counties we suppose the *education* of the industrial classes was neglected.—*Flag.*

"SIZE IS OF NO ACCOUNT."—A gifted African of boot-black persuasion, while dancing like St. Vitus over a customer's boots the other day, observed his partner poring wisely over a newspaper, whereupon the following colloquy ensued: First member of the firm,—"Julius, what you lookin' at dat paper for, you can't read?" Second member.—"Go way, fellah; guess I can read; guess I'se big enough for dat." First member,—"Dat ain't nuffin; a cow is big enough to catch a mice, but she can't do it."

A CONFEDERATE soldier named Pollack returned recently to his home in Marshall county, Mississippi, and finding his wife married to one McCarty, at once shot McCarty, the wife and himself. UNION PLATFORM.

Adopted by the State Convention, Aug. 17, 1865.

Resolved, That representing the loyal Union men, and the Union party of California, we acknowledge our inestimable debt of gratitude to the brave men who on land and sea have fought the battles of the republic through the varying fortunes of a desperate civil war; to the statesmen who have exercised the civil authority of the Government and conducted its diplomacy; and above all to Almighty God, whose gracious Providence in the affairs of men was never more signally manifest than in bringing our country—the hope and beacon light of humanity—triumphantly through so terrible a struggle.

Resolved, That while we have reason to rejoice in the success which has attended Union arms, and Union principles, we recognize the facts that our work is not yet done; that great questions yet remain to be settled and great difficulties to be overcome by Congress and the Administration in bringing order, peace and submission to law, out of the confusion and disorder in which the war has left the late rebel States; that there are still elements of disaffection to be restrained in the section lately in rebellion and to be combatted at the polls in California; and that consequently there is no less necessity than heretofore for maintaining the organization of the party in its full vigor and integrity, to the end that California may at all times be in condition to render the most effective and loyal support to every measure of policy which may be found necessary by Congress or the Administration in order to maintain the authority of the Union and to secure and perpetuate the just fruits of victory.

Resolved, That in the life of Abraham Lincoln we recognize not only the eminent and lasting services which he rendered to our country as a patriot and a statesman, but also the brilliant and unstained example which he has left to his countrymen and mankind. Hitherto our history has been wanting in our illustration of the stimulating energy and of the field of action bestowed by our republican institutions. But in the history of his life we have an actual instance of one born in the humblest condition of society, who surmounted the obstacles infused by poverty and want of education, rising successfully from the lowest to the highest station in country, equal to every position and superior to every trial, and everywhere and at all times, and for all time presenting to the world the ideal type of the representative republican man, citizen and patriot. On his tomb we lay the offering of gratitude and love.

Resolved, That in Andrew Johnson we recognize the worthy successor of Abraham Lincoln; like him the representative of the benefits of our free and beneficent republican institutions, and that to him we transfer, with undoubting faith, the allegiance of hope and love which we bear to the beloved institutions of our county. That we approve the spirit of combined firmness and clemency which has thus far characterized his administration. We indorse his declaration, "That the restoration of peace and order cannot be entrusted to rebels and traitors who destroyed the peace and trampled down the order that had existed more than half a century," and believe it to be the duty of all Union men to oppose the restoration of civil power in the rebellious States until the President and Congress shall be satisfied that it will be wielded by truly loyal majorities therein. We have the fullest confidence in the Administration of President Johnson, and in his patriotism, wisdom and judgment, and pledge him our earnest support.

Resolved That it is the duty and policy of the State of California to adopt the amendment of the Constitution of the United States prohibiting involuntry servitude except on conviction for crime throughout the United States.

Resolved, That the Monroe doctrine is the traditional and well established policy of the United States, and we cannot see with indifference the subversion of the liberties of a friendly republic by European arms, and the establishment of imperialism by the same means, on our immediate borders.

PLACER COUNTY UNION PLATFORM.

WHEREAS, the Union party of Placero cunty have assembled in Convention on this 27th day of June, 1865, for the purpose of choosing appropriate men to serve the people of said county as public officers; therefore

Resolved, That the Union men of this county rejoice over the success of the Federal Government in crushing beneath its iron heel the Slaveholders rebellion, and in restoring law and order in the rebellious States

Resolved, That we are in favor of a pacific national policy toward foreign nations in the settlement of demands and difficulties which have arisen during the rebellion, but are unanimously opposed to a compromise of any principal of right or National honor, for the sake of peace.

Resolved, That we reiterate our policy of retrenchment in an economical administration of our County, State and National affairs, and that in this connection, we declare our unqualified approval of the course of our late lamented Chief Magistrate, for the past four years, as deserving our lasting gratitude of a free and Chiritian people for his sound statesmanship evinced by him, and the noble patriots whom he had called around him.

Resolved, That we earnestly desire the adoption, by the California Legislature, of the Constitutional Amendment passed by Congress at its last session, forever prohibiting slavery in the United States.

Resolved, That the loyal citizens of this county look forward with the greatest anxiety to the adoption of the National Currency Notes as a circulating medium.

Resolved, That henceforth the watchword of American patriots shall be, America for Americans, and by Americans, which includes all men born on native or foreign soil, who accept in their hearts our Declaration of Independence, our Constitution and our laws, and who are inspired by the spirit of American liberty, while it rigidly excludes *all*, both native and foreign, in whose hearts there is avowed sympathy with domestic traitors or foreign foes.

MISCELLANEOUS ADVERTISEMENTS.

QUICK CURES, SMALL CHARGES.

ELECTROPATHIC INSTITUTE,
645 Washington Street, San Francisco,
ESTABLISHED FEBRUARY, 1860, BY AN ASSOCIATION OF SCIENTIFIC GENTLEMEN FOR THECUE OF DISEASES, AND THE SUPPRESSION OF QUACKERY.

Truths for the Afflicted.

This splendid establishment was inaugurated in February, 1860, by an association of Scientific gentlemen, that there might be a Medical Establishment in San Francisco, where the afflicted could find scientific and honorable, as well as humane treatment. *Outrageous Quackery* had so long run rampant over afflicted humanity that all confidence was being lost in the Medical Profession, and it was time that there should be an Institute where the afflicted could apply with the certainty of honorable and Scientific treatment. And the result has thus far exceeded the most sanguine expectations of its founders.

Thousands have been made to rejoice in returned health who had been trifled with by the numerous vampires that abound upon this coast, the chief of whom has been obliged to close out and leave the country; but still there are some left of whom the afflicted should beware.

The basis of the treatment at the Institute is the Electropathic System. The Physician and Surgeon who has been a Professor in one of the best Medical Colleges in America, and who has made a special study of Chronic Diseases for the last fifteen years, is thoroughly qualified to treat by medicine, and will warrant a perfect and permanent cure in the shortest possible time. All long-standing cases of disease no matter what may be their nature, give way under the course of treatment pursued at the Institute, and the result is perfect health and a strengthened constitution where it has been injured.

It would be useless to enumerate the diseases as it would be occupying space to no purpose. Every nameable complaint to which humanity is liable, can be cured by the faculty at the Institute.

No mercury is used upon any consideration. All medicines prescribed are vegetable, and in cases where the patient can remain in the city, and wishes to be treated by Electricity, no medicines will be used. All medicines are electrized, which makes them much more active, and destroys all nauseous taste, making them as palatable as wine.

The Directors wish to speak of specialities more extensively than of other complaints, because empirics have used more deception about them than they have about the regular troubles of the human family. And first on the list is that dreadful malady denominated Seminal Weakness, or Spermatorrhœa, a complaint which not only affects the body with pain and lassitude, making life a burden, but affects the brain, creating *Insanity*. It drives more men to the mad house than all other diseases added together. By the Electropathic System this terrible trouble gives way, and the hitherto emaciated victim is made to rejoice in perfect health.

Next upon the list is Venereal, in all of its terrible forms and phases.

It is impossible to paint this disease in colors sufficiently terrible to do it justice. It is the most awful disease to which the human family is liable, and if not arrested when active, making him a loathsome mass of living corruption. It is also one of the most insidious diseases in hte world. While the exterior shows no symptom, the orrible disease is sapping the foundations of life, preparing to attack its vital parts, as soon as the patient shall by some indiscretion weaken the system. Reader, if you have ever had this awful disease in any form whatever, call at once at the Institute, and the physician there will examine you and tell you if you have any of the virus in your blood. In such cases consultations are always gratis, and should you have any of the dreadful complaint about you, a cure will be warranted in a short time, or no charges will be ade for servicems.

Strictures.

This terrible affection, which badly affects the nervous system as to prevent sound and health giving sleep, should be attended to in its early stages, or an operation both painful and dangerous will have to be resorted to. It is usually first indicated by darting pains in the parts, but very light and hardly noticeable at first, increasing gradually, until they become troublesome, sometimes accompanied by slight irritations in the passage of urine—A *quick cure* is easily performed at the Institute if early application is made.

To Females.

Your delicate organizations should be treated with great scientific care. At the Institute you will find a kind physician, who can at once discover your disease or trouble, and sympatize with you in your affliction. Should you be irregular you can get relief, no matter what may be the cause. You need not fear to call on account of the delicacy of consultation for the utmost secrecy will be insured at all times, and the resident physician will treat you in the most honorable manner, giving you all the assistance and advice, both medical and surgical, that you may require. *Private apartments, especially for Ladies.*

Preventive.

Dr. J. H. Josselyn's celebrated Preventive for married ladies can be obtained only at the Institute. Price, Ten Dollars.

Warranted to prevent pregnancy. Can be used without any inconvenience, and is good for one year if directions are followed.

This Magnetic Preventive is not infurious, but is conducive to health, and can be used without the know ledge of any one but the party using it.

To sum up, there is no place where the medical profession is practiced in the State of California, wherein the same amount of scientific attainments are employed, and, consequently, where the afflicted can be so well treated, and be as sure of a cure, as at the Electropathic Institute, 645 Washington street, (south side,) a few doors below Kearny.

Reader, if you are sick and need medical assistance call therebefore employing any one else, and judge for yourself. You will there find the best consulting, as well as the the best operating talent in the State, together with the only Electropathic Instrument that can be depended upon in the curative process.

Medicine sent to all parts of the State, Oregon and Nevada, upon the receipt of a letter describing the case.

All letters must be directed to J. H. JOSSELYN, M. D., Resident Physician, Electropathic Institute.

Dr. H. JOSELYN has no connection with any other establishment or Institute in this city.

All letters answered with promptness and pleasure, and the utmost secrecy observed. Address

PRIVATE MEDICAL AID.
Quick Cures and Moderate Charges.
DR. W. K. DOHERTY'S
Private Medical and Surgical Institute,
Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Co.'s Office.
Private entrance on Leidesdorff st., San Francisco.
Established expressly to afford the afflicted sound and Scientific Medical Aid, in the treatment and cure of all Private and Chronic Diseases, cases of secrecy and all Sexual Diseases.
To the Afflicted.
DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its form and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal Emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references from men of known respectability and high standing in society. All parties consulting him, by letter or otherwise, will receive the best and gentlest treatment and implicit secrecy.
DR. DOHERTY would call attention to the following certificates from two of his patients, who having fully recovered their health, desire to make known their remedial agent. It will be seen their statements are fully authenticated by a Notary Public.
The welfare of society imperiously demand their publicity, and they are given more to warn the unwary than to sound the praises of a Physician, of whom hundreds of like cases can be cited, during a practice of more than fifteen years.
Dr. Doherty—Dear Sir: I feel my health so fully restored, that in common gratitude, I believe I should make you some written acknowledgment for your valuable services—particularly so as your fee was small for the work performed.
I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such positive assurances of success were necessarily the best (some of whom have a large number of titles), I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.
I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the Stricture is all removed, and my general health is better than it has been for years.
In conclusion I would say to the many unfortunates who require medical advice, if you have any doubt as to whom you may employ, ask Dr. Doherty for my address and call and see me. (I keep store in this city.) My experience may save you many dollars.
I would also add that in the early stage of my disease, I used a large amount of the preparations advertised as an infallible cure for Gonorrhœa, Gleet, etc., but never derived any benefit from them.
I am, Doctor, very truly yours, L—— H——.
San Francisco, June 16, 1864.

SEMINAL WEAKNESS—A SWORN-TO CERTIFICATE OF MOST REMARKABLE CURE OF SPERMATORRHŒA.
A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhœa," or Seminal Weakness, the result of selfabuse, but till 1855 experienced but little trouble or inconvenience. In that year however, I had Seminal weakness to an alarming extent, which was soon followed by the most alarming symptome as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind, too, was afflicted to such an extent as to seriously impair my memory; my ideas were confused and spirits depressed. I was averse to society, had evil forebodings and self-distrust, and was entirely unfitted for any of the duties of life. From 1855 to the summer of 1863, I employed the very best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had about concluded there was no relief for me in this world, but seeing Dr. Doherty's advertisement, I thought I would call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty at his office, in Sacramento street, and his fee for treatment was so reasonable, I determined to try him, though I did not expect much benefit from his treatment. On the 5th of December last I placed myself under his care; in one week I found myself very much improved, and now, after five weeks' treatment, I feel myself thoroughly cured of all my troubles and in the enjoyment of the best health. Hoping that my experience may be of benefit to others similarly afflicted, I subscribe myself
JAMES JOHNSTON.

To Females.
When a female is in trouble, or afflicted with disease, as weakness of the back and limbs, pain in the head, dimness of sight, loss of muscular power, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility, and all other diseases peculiar to females, they should go or write at once to the celebrated female doctor, W. K. Doherty, at his Medical Institute, and consult him about their troubles and disease. The Doctor is effecting more cures than any other Physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies, whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arraged that he can be consulted without fear of observation.
To Correspondents.
Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. Doherty on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred. Dr. Doherty takes this opportunity of observing, that all letters are only opened and replied to by himself, and the latter as promptly as possible.
If the case be fully and candidly described, and the usual fee of ten dollars enclosed, (by express or in a registered letter) personal communication will be superseded, as instructions for diet, regimen, and the general treatment the case itself (including the remedies), will be forwarded without delay, and in such a manner as to convey no purport of the letter or parcel so transmitted.
Consultation at the office FREE. By letter, $10
Permanent cure guaranteed, or no pay. Address,

HELMBOLD'S
FLUID EXTRACT BUCHU
Improved Rose Wash

Will radically exterminate from the system Diseases arising from Habits of Dissipation, *at little expense, little or no change of diet, no inconvenience, or exposure;* completely superseding those *unpleasant and dangerous remedies, Copaiba* and *Mercury*, in curing these diseases.

USE HELMBOLD'S
FLUID EXTRACT BUCHU

In all Diseases of the Urinary Organs, whether existing in MALE or FEMALE, *from whatever cause originating, and no matter of how long standing.* It is pleasant in its taste and odor, IMMEDIATE in action, and more strengthening than any of the preparations of Bark or Iron.

Those suffering from *Broken Down or Delicate Constitutions, procure the Remedy at once.*

The Reader must be aware that however slight may be the attack of the above diseases, it is certain to affect his *Bodily Health, Mental Powers and Happiness.* If no treatment is submitted to, Consumption or Insanity may ensue.

All the above diseases require the aid of a diuretic.

HELMBOLD'S EXTRACT BUCHU
Is the Great Diuretic.

HELMBOLD'S
HIGHLY CONCENTRATED
Compound Fluid Extract Sarsaparilla,

For purifying the blood, removing all diseases arising from excess and imprudence in life, chronic constitutional diseases arising from an impure state of the blood, and the only reliable and effectual known remedy for the cure of Scrofula, Scald Head, Salt Rheum, Pains and Swelling of the Bones, Ulcerations of the Throat and Limbs, Blotches, Pimples on the Face, Tetter, Erysipelas, and Scaly eruptions of the skin, and beautifying the COMPLEXION.

AND HAPPINESS

NOT A FEW

Of the worst disorders that afflict mankind arise from the corruption that accumulates in the Blood. Of all the discoveries that have been made to purge it out, none can equal in effect *HELMBOLD'S COMPOUND EXTRACT OF SARSAPARILLA.* It cleanses and renovates the Blood, instills the vigor of health into the system, and purges out the humors which make disease. It stimulates the healthy functions of the body, and expels the disorders that grow and rankle in the Blood. Such a remedy, that could be relied on, has long been sought for, and now, for the first time, the public have one on which they can depend. Our space here does not admit of certificates to show its effects, but the trial of a single bottle will show to the sick that it has virtues surpassing any thing they have ever taken.

Two tablespoonsful of the Extract of Sarsaparilla, added to a pint of water, is equal to a Lisbon Diet-Drink, and one bottle is equal to a gallon of the Syrup of Sarsaparilla, or the decoction as usually made.

The above Extracts are prepared on purely scientific principles—*in Vacuo*—and embody the full strength of the ingredients entering into their composition. A ready and conclusive test will be a comparison of their properties with those set forth in the U. S. Dispensatory.

HOW TO USE THE REMEDIES.

In Diseases of the Blood, Humors on the Face, or any and every part of the body, use Extract Sarsaparilla, applying to Pimples and all external Humors or Eruptions the Improved Rose Wash.

Use the Extract Buchu for all diseases requiring the aid of a Diuretic, except those of the Urinary Organs, such as Gonorrhœa and Gleet; in these use the Extract Buchu and inject with the Improved Rose Wash.

THESE EXTRACTS HAVE BEEN ADMITTED TO USE IN THE UNITED STATES ARMY, and also are in very general use in all the STATE HOSPITALS AND PUBLIC INSTITUTIONS throughout the land, as well as in private practice, and are considered as invaluable remedies.

The California Fly Killing Liquid.

FLY PAPER KILLS ITS THOUSANDS, THE LIQUID Fly Killer its tens of thousands. This preparation for killing flies gives the greatest satisfaction of anything ever yet used. It is now improved to the highest killing point. It is of such a nature and so speedy of effects, that the flies will not spot the walls and windows, which makes the use of other preparations so objectionable.

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned establishment of Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world, and the success of its treatment ranks it second to none.

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength and vigor from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venerial Poison. The mildest forms, by retreating to the blood, hold sway over the one afflicted, the sword of destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, *recognized as the most fatal medical enemy to man*, combining with the Venerial, doubles in dangers. Those who have been treated with that pernicious *mineral poison* are not cured: the disease has only assumed a new form.

Do not be Satisfied with Partial Cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician, whom long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all diseases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT.

Cures are always Guaranteed.

In syphilis and its adjuncts; Gonnorhœa and its accompanying diseases; and all disorders of the Bladder, Kidneys and prostrate; Seminal Weakness; Diseases of the Heart and Lungs; Dyspepsia; Indigestion, Impotency; Incipient Consumption, and all diseases of the urinary organs, in either sex, cure always warranted, OR NO PAY REQUIRED at the

SEMINAL WEAKNESS OR SPERMATORRHŒA.

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion, unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil sleeplessness, troubled and lacivious dreams accompanied by growing deafness, loss of muscular power, and numerous other symptoms of disorganization, the positive traces of that most terrible and destructive of all diseases, Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence toward a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principal of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one who looks to him for so much of her happiness, is a victim of his evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once
